

PROFESSIONAL SUMMARY:

Analytical and detail-oriented Computer Engineer with a Master's degree in Biomedical Engineering, specializing in neurodevelopmental disorders and assistive technologies.

Currently pursuing a specialization in Machine Learning at Stanford University, I leverage my experience developing AI-based solutions (TEOplay) and immersive technologies (AR/VR) to enhance children's autonomy and educational inclusion. I excel at structuring logical reasoning frameworks and optimizing complex data flows for training AI models

CONTACT:

EMAIL: luisguillermo80@gmail.com

RESIDENCE:

Bogotá D.C. | Colombia

BIRTH:

Caracas - Venezuela. | March 1st 1980

LUIS GUILLERMO RAMIREZ SEMECO

AI Data Trainer | MSc. Biomedical Engineering | Computer Engineer

Bogotá, Colombia | luisguillermo80@gmail.com | +57 (320) 863-1969

EDUCATION

Stanford University (via Coursera) | **Machine Learning Specialization**
In Progress (Expected Completion: Jan 2026)

- **Focus: Supervised Learning, Neural Networks, and Reinforcement Learning.**

MSc. Biomedical Engineering | Universidad del Rosario / Escuela Colombiana de Ingeniería Julio Garavito (Bogotá, Colombia) | 2020

- **Focus: Neurodevelopmental Disorders and Assistive Technologies.**

Bachelor of Science in Computer Science Engineering | Universidad Alejandro de Humboldt (Caracas, Venezuela) | 2006

Associate Degree in Computer Science | Instituto Universitario de Tecnología Antonio José de Sucre (Caracas, Venezuela) | 2002

JOB EXPERIENCE

AI Prompt Specialist & Model Optimizer (Contract) | Remote | **2024 – Present**

- Refine complex prompt architectures for Large Language Models (LLMs) to improve logical consistency and output precision.
- Develop sequential reasoning logs and decision-making frameworks to guide AI agents through multi-step assignments.
- Audit and evaluate model responses against specialized domain knowledge to reduce hallucinations and ensure technical accuracy.

Founder & Director | Parquetrópolis | Bogotá, Colombia | **2018 – Present**

- Lead the R&D of TEOplay, an AI-driven tool for analyzing behavioral and learning patterns in children with neurodevelopmental disorders.
- Design and implement data-driven pedagogical frameworks using Python for personalized neurodevelopmental support.
- Designing immersive AR/VR solutions with Unity 3D to complement educational and therapeutic support.

PREVIOUS PROFESSIONAL EXPERIENCE

Founder & CEO | Grupo Epachamo SAS | Bogotá, Colombia | **2005 – 2018**

- Coordinated IT infrastructure projects and implemented technological solutions for internal process optimization and customer service.
- Managed the design and installation of inclusive playground equipment and educational spaces

Systems Analyst | Netuno C.A. | Caracas, Venezuela | **2002 – 2005**

- Managed telephony systems analysis and provided technical support for telecommunications infrastructure.

PREVIOUS PROFESSIONAL EXPERIENCE (Continued)

Data Security Analyst | Banco BFC | Caracas, Venezuela | 2001 – 2002

- Monitored data security protocols and maintained financial information systems

Help Desk Analyst | ABN AMRO Bank, NV | Caracas, Venezuela | 2000 – 2001

- Provided technical support and hardware/software troubleshooting for financial technology services.

Cashier Chief | Banco CorpBanca | Caracas, Venezuela | 1997 – 2000

- Supervised financial operations and managed cash flow security protocols

RESEARCH & KEY PROJECTS

TEOplay | Lead AI Developer & Researcher | Parquetropolis 2025

- **Core Function:** An AI-powered tool to analyze behavioral and learning patterns and generate predictive models for children with neurodevelopmental disorders.
- **Data Impact:** Designed algorithms to process behavioral data, enabling the creation of adaptive pedagogical plans tailored to individual cognitive profiles.
- **Innovation:** Integrated predictive analytics to improve the development of school skills by reducing the gap between clinical observation and school inclusion.

Master's Thesis | Lead Researcher |

School of Medicine and Health Sciences - Universidad del Rosario 2020

- **Project:** "Technological prototype based on Virtual Reality as a therapeutic tool for social interaction in adolescents with Asperger Syndrome".
- **Development:** Designed and validated an immersive VR environment (Unity/C#) to facilitate social training in a controlled, data-monitored setting.

SPECIALIZED EDUCATION & CERTIFICATIONS

Artificial Intelligence & Machine Learning:

- AI in Healthcare Specialization | Stanford University (On line) | In Progress.
- Machine Learning Specialization | Stanford University (On line) | (2025).
- Neural Networks and Artificial Intelligence | P4H Bionic, Mexico | (2023).

Applied Neuroscience & Neuropsychology:

- Neuropsychology of Executive Processes and Self-regulation | CLEV | (2025)
- Neuropsychology in Education and Neuro-didactics | CLEV | (2025)
- Diploma in Applied Neurosciences | Universidad El Bosque | (2021).
- Neuropsychology of Language and Learning Disorders | Universidad del Rosario | (2021).

Inclusion, Autism & Assistive Tech:

- Colombian Sign Language (LSC) - Level 2 | Lscolombiana (2024).
- Sensory Integration in Autism and ADHD | CIL (2023).
- Autism and Other Childhood Disorders | CIL (2023).
- 3D Bionic Exoskeletons & Bio-organic Design | P4H Bionic, Mexico (2023).
- Colombian Sign Language (LSC) - Level 1 | Universidad Agustiniana (2022).

Professional Development & Safety:

- Basic Life Support (CPR and AED) | American Heart Association (2020).
- Diploma in Digital Transformation | Universidad de la Sabana (2018).

TECHNICAL SKILLS

Artificial Intelligence & Data Science:

- **Programming:** Python (Advanced for Data Analysis: Pandas, NumPy, Matplotlib, Seaborn), C#, SQL/PL-SQL.
- **AI Frameworks:** Neural Networks, LLM Prompt Optimization, Supervised Learning, Predictive Analytics.
- **Model Training:** RLHF (Reinforcement Learning from Human Feedback), Data Labeling, and Fine-tuning

Immersive & Biomedical Technologies:

- **Software Development:** Unity 3D (AR/VR), Vuforia Engine, Bionic Technology Design.
- **Engineering Tools:** 3D Bio-organic Design, Bio-signal Analysis (EEG/EMG patterns).

Domain Expertise:

- **Neurodevelopment:** Autism Spectrum Disorder (ASD), ADHD, and Neurodiversity-inclusive Design.
- **Neuropsychology:** Cognitive Profile Analysis, Executive Processes, and Learning Disorders.
- **Accessibility:** Universal Design for Learning (UDL), Sign Language Integration.

Languages:

- **English:** B1 Level (Professional & Technical Proficiency).
- **Spanish:** Native.
- **Colombian Sign Language (LSC):** Level 2.
- **Braille System**
